

Website Solution

"Have you tried a BLKMGK Solution lately?"

Our Solution

BLKMGK ICT's Website Solution provides a complete web package including domain name registration, website hosting, professionally designed pages and a content management system. We've spent the last 12 months researching the best tools and design techniques for producing quality websites that reflect your organisation's personality on the internet.

Hosting Package

Our hosting package is one of the best in industry today. For a yearly subscription fee we provide:

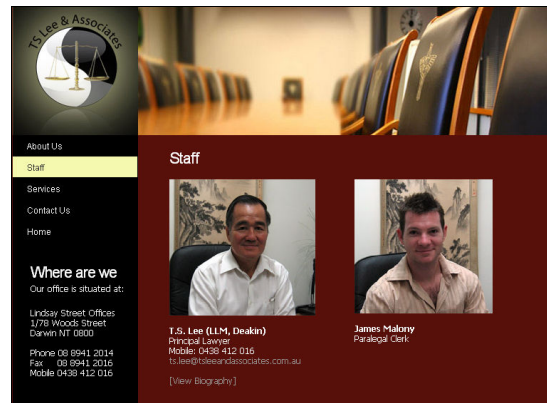

- Fast Web Servers
- 1GB Web Storage Space
- Unlimited email accounts – web accessible
- 10 SQL Databases
- Website statistics tools

Content Management System

A Content Management System (CMS) is special software that works through your internet browser and allows you to update your website without having to rely on external service providers. I.e. You won't have to keep calling us up to do small updates, and you have complete control over the content of your website and can update it whenever you need to. BLKMGK ICT offers two different CMSes depending on the size and complexity of your content management requirements. In short, we match up the best software to meet your needs.

Other Services

Our web services team consists of Web Designers, Developers, Analysts and Graphics Designers and can offer other services including:

- Logo design
- Website migration to a new host
- Setting up Blogs, Wikis, RSS Feeds & Forums
- Online Learning Management Portals

Support and Maintenance

While we encourage all of our clients to manage their web solutions themselves, in line with our "Peace of Mind" policy, our web services team is always on hand to provide any extra support and maintenance if required. If anything goes wrong, we're only a phone call away!

Getting the balance between cost and design is a tricky situation and that's why we've got a variety of solutions ranging from \$2000, \$5000, and \$10,000 solutions to meet your budget. So contact one of our Solutions team to find out how we can assist in creating your online presence today! Can you afford not to?
